Mo. No.: 9765686088 / 9730079740

### Technical Skills

- Python
- SQL
- Excel
- Tableau
- Power BI
- Machine Learning
- Statistical Analysis

### **Soft Skills:**

- Problem Solving
- Communication
- Collaboration

### Certifications

- Data Science Certification:  
ExcelR Solutions 01st March 2024

Reg/Cert No:  
16786/EXCELR/0103202

- Data Science Internship: Ai variant  
Reg/Cert No: AIV/23-24/Q2/04/14909

### Personal Details

Date of Birth: 26/02/1998

Gender: Male

Nationality: Indian

Marital Status: Single

Languages Known: Marathi, Hindi, English

Current Address: A/P. Baner, Pune,  
Pin-code – 411045

### Professional Summary

Postgraduate in Statistics with 2 years of professional experience as a Data Analyst. Proficient in Python, SQL and Power BI with expertise in predictive modeling, statistical analysis, and dashboard design. Skilled in deriving actionable insights from complex datasets to support business growth and decision-making. Passionate about solving complex problems and leveraging data-driven strategies for impactful solutions.

### Education

#### **Data Science Course**

ExcelR Solutions, Pune (2023)

#### **Master of Science (Statistics)**

Dr. Babasaheb Ambedkar Marathwada University (2021 – 2023)

#### **Bachelor of Science (Statistics)**

T.C. College, Baramati (Savitribai Phule Pune University) (2018 – 2021)

### Professional Experience

#### **Data Analyst**

*Dynamic Information Technology (2023 – Present)*

- Analysed and interpreted complex datasets to generate actionable insights for business decision-making.
- Leveraged Python, R, and SQL for data cleaning, transformation, and advanced statistical analysis.
- Built predictive models and applied machine learning techniques to identify patterns and improve forecasting accuracy.
- Designed interactive dashboards and reports in Tableau and Power BI, enhancing reporting efficiency and real-time insights.
- Collaborated with cross-functional teams to translate business requirements into analytical solutions and process improvements.

### Projects

#### **Book Recommendation System (Jul 2023 – Apr 2024)**

- Built a personalized recommendation engine using content-based filtering (TF-IDF) in Python; deployed with Streamlit for real-time use.

#### **Resume Classification (Jan 2023 – Apr 2024)**

- Developed an NLP model using TF-IDF and ML algorithms to automate resume sorting; deployed via Streamlit to reduce manual HR effort.

#### **Customer Personality Analysis (Nov 2023 – May 2024)**

- Applied K-Means clustering on demographic and purchase data; delivered insights with Tableau dashboards to support targeted marketing.

### Declaration

I hereby declare that the above information provided by me is true to the best of my knowledge and belief.
